

WHAT HAS “SERVE” BEEN DOING LATELY?

We had “Loads of Fun” on February 9th, when we went to the local laundromat. Thanks to the congregation who supplied the many quarters we were able to reach out to many people and help them with their laundry for two (2) hours putting the quarters in the washing machines and driers.

“God wants you to be healthy” was our theme for Saturday, February 18th when “SERVE” went to the Wellness Expo and provided an apple or an orange or a bottle of water those in attendance.

We had a Teddy Bear Picnic on February 23rd. Everyone was invited to bring their teddy bear and we learned about the Teddy Bear Project we do right here at St. John UCC for our local hospital. We collect the funds to purchase the Teddy Bears or stuffed animals and then take them out to Abraham Lincoln Memorial Hospital for them to give to children coming into the Emergency Room. What a nice way of saying someone cares about you when you need a little comfort.

Our project on Thursday, March 2nd was making gifts bags to go to the Logan County Health Department to be handed out to children who came there. Each bag had a coloring book, crayons, and a few more items. Just another way St. John UCC is providing support to the community.
